

## **Frankford Radio Club to Donate Complete Station to Radio Contester**

The Frankford Radio Club is one of the premier radiosport contesting organizations in the world. The club is looking to promote contest operating and will donate a complete station to one licensed amateur radio operator who wishes to get started in the contesting experience but is unable to put together a station.

The station will be donated by FRC President Ray Sokola K9RS and, while used, is complete and working including everything needed to get on the air on both SSB and CW. (See the attached for a description of what is included.)

Applications are now being accepted which must include name, callsign, contact information (phone and/or email) and one page or less on why the applicant feels he or she is deserving of a station with which to start contesting. Please send the application via e-mail to:

Mark Kempisty – FRC Secretary at [aa3k@arrl.net](mailto:aa3k@arrl.net) by February 15, 2011.

Since the beginning, FRC members have been leaders in both operating and technical excellence in pursuit of dominance in the sport of amateur radio contesting. The FRC has historically been at the top of the club competitions in the major DX contests. In addition, its members hold many contest records either individually or as part of multi-operator efforts, both U.S. and worldwide.

In addition to looking for someone deserving of a complete station the FRC is also interested in new members who would like to be a part of the contesting experience. We are particularly looking for those who are willing to enter and submit a log in at least two of the four major ARRL and CQ World Wide SSB and CW radio contests each season. Participation can be at an individual's station (either large or small) or as part of a multi-operator effort at some of the best equipped and competitive stations around. As a member, every point counts and it is a chance to make a difference as the club competes to win in these contests. Take a look at our web site: <http://gofrc.org/>. If you want to join, please fill out the membership application at: <http://gofrc.org/frctest/node/46> and send it to [k9rs@yahoo.com](mailto:k9rs@yahoo.com)

Be a part of it and GO FRC!
